Amendment

In The Claims:

Please amend claims 12 and 13 as follows:

CM 12. (Four Times Amended) In a wireless communication
F system comprising a wireless voice network and a wireless
data network, wherein a mobile station can camp onto the
voice network via a first control channel and can camp
onto the data network via a second control channel but
cannot camp on both networks simultaneously, a method for
notifying the mobile station of a communication from the
voice network while it is camped on the data network, the
